- **ISO Tank & Shipping App**

Designed & Developed Two Enterprise resource planning(ERP) application where all the data of supply chain management were handled and all the estimations were calculated as well. All the designs were developed by Ant design and Material UI. Redux was used for state management in these two ERP apps.

PERSONAL PROJECTS

E-CART WEBAPP

https://e-cart-sambitsuvankar.vercel.app/

Made this E-commerce Web App using React JS. Fetched all the data from a free API. Stored the shop data and cart data in redux. Implemented authentication using Google firebase and made all the UI using custom classes of Tailwind CSS. Hosted this app on Vercel.

CROWN CLOTHING E-COMMERCE WEBAPP

https://crwn--clothing-sam.herokuapp.com/

Made this web App using React JS. Fetched all the data from an API and stored the data on firebase database. Added google authentication features using firebase Auth. Used 3 state management like Redux Saga, React Hooks and GraphQL to manage the state of the WebApp. Hosted this app on Heroku.

FORKIFY FOOD SEARCH APP

https://forkify-sambit.netlify.app/

Made this food search App using OOPs concept. The code paradigm is based on the MVC architecture. Fetched the data from a public API and organized the search results in a pagination manner. One can make his/her own recipe by adding all the ingredient and can save it as a bookmark. This data will be stored in the localstorage. Hosted this web App on Netlify Server.
